Governor Lewelling has granted pardons to three Hispania drugists who are in jail for selling intoxicating liquors contrary to law. The governor takes the position that his pardon is to those druggists their permits to sell liquor for the special purposes allowed by law. Assistant Attorney Clark says a conviction revokes the permit which can not be restored by a pardon. This question will have to be settled in the courts.

TO HANDLE MUSKETS.

Sunday School Boys to Be Taught the Art of War.

The divine sentiment "Peace on earth and good will to men" is not what some of the Sunday schools in Topeka want. They want military companies among the boys. These military companies are not organized like the Salvation Army, merely for the drill and the military sentiment, but they are to be actually armed with muskets. What for? Certainly not to learn how to kill people with them. But if not, what are these muskets for? Military companies for boys are not necessarily a bad thing; but there is something in the bloody suggestiveness of it that becomes a church. Isn't the church here to bring about a universal reign of peace, not of musketry? A communication sent to the JOURNAL to-day says:

"The officers of the Redden Mission first availed and Monroe street, after several weeks consideration, completed their arrangements with regard to their boys' brigade in connection with their Sunday school. It has been a long fight won among the boys. They have wanted nothing to induce themselves during the week and it is the wish of the officers to teach the boys how to drill and handle muskets."

The commander of the brigade will be the superintendent of the mission, Alexander Laing, who comes from Scotland where the Boundary Boys Brigade was established nearly 40 years ago and he is familiar with the workings of the same. H. M. Phillips, one of the teachers of the Sunday school, will be orderly sergeant. He has had wide experience in drilling military companies both in the states of Pennsylvania and Kansas.
